

**JIC Venture Growth Investments has invested in Quemix Inc., a start-up researching,
developing and implementing Quantum Computing for industries
- Acceleration for entrepreneurs and investments in Quantum Computing Industry -**

December 8th, 2020

JIC Venture Growth Investments (VGI) has acquired the share in Quemix Inc. (Quemix), a company pioneering domestic QC industry, through its JIC Venture Growth Fund 1 (VGF1).

Quemix researches, develops, and implements QC, and has various epoch-making achievements in material development, drug discovery, logistics, entertainment, and so on and so forth, both in Quantum Gate and Annealing, collaborating with academia.

VGI accelerates to break through industrial applications of QC, through Quemix's business. It's essential for the application development to highly integrate R&D results and resources into business knowledges and resources, and Quemix has highly mixed ones, and retains talents from both leading research institutes and Terrasky Co., Ltd., a leading cloud services provider.

Investment in QC is booming in other countries. VGI fully supports Quemix to be a frontier leading entrepreneurs and investments in domestic QC Industry, by having Quemix obtain resources and develop the applications through this funding.
